

Announcing Appian and Amexio Partnership

Paris, 20th January 2020

Amexio, the first ECM & CCM leading integrator in Europe, is proud to announce a [partnership](#) with Appian Corporation, a leading provider of a modern application platform for Business Process Management (BPM) and Case Management solutions.

Based in Virginia, [Appian](#) provides a low-code development platform that accelerates the creation of high-impact business applications. The Appian technology platform enables organizations to build critical business applications that can be accessed across desktop, laptop, smartphone, and tablet devices in order to:

- Improve customer experience
- Achieve operational excellence
- Increase collaboration
- Accelerate time to market
- And simplify global risk management and compliance

Appian has been cited by [Gartner](#) as a leader among 18 low-code software vendors and was named by [Forrester Research](#) for their Dynamic Case Management solutions.

Since 2006, Amexio has built a solid reputation in [digital transformation](#) to identify and solve the problems of its customers with BPM solutions, among others.

This partnership further strengthens Amexio's technical, functional and operational expertise.

Amexio is offering the following services on the Appian platform :

Amexio Consulting :

- To help you execute enterprise-wide transformation initiatives
- To assist you in defining, formalizing and managing your BPM project on the Appian platform

Amexio Integration :

- To ensure the realization of your projects and to accelerate the delivery of intuitive user interfaces
- To build simple, powerful business processes on the Appian BPM platform

The execution of these services is based on our know-how : custom development, client mentoring and change management process using the Agile methodology.

AMEXIO, the ECM&CCM leading integrator in Europe :
